# EVlink PARKING Floor Standing 22KW 2xT2 with Shutter RFID EV CHARGING STATION

EVF2S22P44R

(!) To be discontinued on: 30 Dec 2023

(!) To be end-of-service on: 31 Dec 2025

## Main

| Range                     | EVlink                                                                                                                             |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Product Name              | EVlink parking                                                                                                                     |
| Product Or Component Type | Charging station                                                                                                                   |
| Device Short Name         | EVF2                                                                                                                               |
| Poles Description         | 3P + N for power circuit<br>1P + N for control circuit                                                                             |
| Mounting Mode             | Floor-standing                                                                                                                     |
| Offer Type                | Standard                                                                                                                           |
| Rated Supply Voltage      | 230 V AC 50/60 Hz control circuit<br>380415 V AC 50/60 Hz power circuit                                                            |
| Earthing System           | TT<br>IT<br>TN                                                                                                                     |
| Socket-Outlet Number      | 2                                                                                                                                  |
| Socket-Outlet Type        | Right: T2 with shutter / silver plated contacts<br>Left: T2 with shutter / silver plated contacts                                  |
| Maximum Supply Current    | 32 A for T2 with shutter                                                                                                           |
| Max Power                 | 22 kW for T2 with shutter                                                                                                          |
| Access Control System     | Badge RFID conforming to ISO/IEC 14443 A and B<br>Badge RFID conforming to ISO/IEC 15693<br>Badge RFID conforming to ISO 14443-4 A |

## Complementary

| Control Type                | 2 red push-button, function: stop<br>2 green illuminated push-button, function: start/unlock flap                                                              |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Local Signalling            | On charge: 2 LED (green) (flashing) on side<br>Available: 2 LED (green) on front<br>Reserved: 2 LED (orange) on front<br>Not operational: 2 LED (red) on front |
| Communication Port Protocol | OCPP 1.6                                                                                                                                                       |
| Configuration /Architecture | Clustered architecture<br>Standalone                                                                                                                           |

| Net Weight                | 50 kg                                            |
| Colour                    | Front: white (RAL 9003)<br>Side: grey (RAL 7016) |

## Environment

| Ip Degree Of Protection                  | IP54 off load conforming to IEC 61851-1<br>IP54 on load conforming to IEC 61851-1                 |  |
|------------------------------------------|---------------------------------------------------------------------------------------------------|--|
| Ik Degree Of Protection                  | IK10 charging station conforming to IEC 61851-22<br>IK10 socket-outlet conforming to IEC 61851-22 |  |
| Ambient Air Temperature For<br>Operation | -3050 °C conforming to IEC 61851-22                                                               |  |
| Ambient Air Temperature For<br>Storage   | -4080 °C                                                                                          |  |
| Operating Altitude                       | 02000 m conforming to IEC 61851-22                                                                |  |
| Relative Humidity                        | 095 %                                                                                             |  |

# **Packing Units**

| Unit Type Of Package 1       | PCE      |
|------------------------------|----------|
| Number Of Units In Package 1 | 1        |
| Package 1 Height             | 38.0 cm  |
| Package 1 Width              | 45.0 cm  |
| Package 1 Length             | 128.0 cm |
| Package 1 Weight             | 58.0 kg  |

## Sustainability Screen Premium

**Green Premium<sup>TM</sup> label** is Schneider Electric's commitment to delivering products with best-inclass environmental performance. Green Premium promises compliance with the latest regulations, transparency on environmental impacts, as well as circular and low-CO<sub>2</sub> products.

**Guide to assessing product sustainability** is a white paper that clarifies global eco-label standards and how to interpret environmental declarations.
